PROFESSIONAL EXPERIENCE

Morningstar

Frankfurt, Germany | May 2026 - Ongoing

Associate | Financial Index Operations

- Analyse complex corporate events, including mergers, acquisitions, spin-offs, rights issues and restructurings, interpreting legal and financial documentation to determine their impact on listed companies and index composition.
- Automating legacy manual data validation workflows by developing a scheduled python-based repo, including SQL queries and email reporting.

European Central Bank

Frankfurt, Germany | April 2025 - April 2026

Trainee | DG Monetary Policy - Monetary Analysis Division – Data Center

- Contribution to the division's quarterly policy product, used to inform the board members about monetary and financial conditions prior to governing council deliberations. My team focused on the sources of money creation, cross-border financial flows and emerging trends in stablecoin circulation (survey-based and commercial sources).
- Designed and automated ETL pipelines (Python, SQL) for large-scale macro-financial datasets, collaborating via GitLab for version control; improved data reliability and enabled structured backtesting of rate-sensitive indicators.
- Conducted systematic analysis of cross-border capital flows and liquidity conditions, translating macro drivers into market-relevant implications for fixed income volatility and risk premia.
- Worked with Bloomberg, Refinitiv and internal databases for data extraction, cleaning, aggregation and performance visualization.

Central Bank of Greece

Athens, Greece | September 2024 - February 2025

Intern | Analysis and Research Department - Banking Affairs and Capital Markets section

- Wrote R scripts to transform raw Orbis Europe data (balance sheets, income statements, and financial ratios for ~3,500 banks and ~70,000 firms) into a structured database suitable for econometric analysis.
- Wrote supplementary R scripts to automate the dataset renewal process, facilitating future monitoring.

Foundation for Economic and Industrial Research (IOBE)

Thessaloniki, Greece | October 2022 – December 2022

Intern

- Collaborated with a team of senior researchers to undertake a mapping of taxation policies applicable to self-employed individuals in Greece. Managed large taxation datasets in Excel and produced visualizations.

Valuation & Research Specialists Ltd (VRS)

Thessaloniki, Greece | November 2019 – September 2021

Research Contributor – Financial Analyst (Part-Time, Voluntary)

- Contributed to equity valuation reports through financial statement analysis, business quality assessment and evaluation of earnings sustainability, profitability and balance-sheet strength.
- Covered FX pairs such as EUR/USD and USD/CAD using technical and fundamental analysis.

EDUCATION

Athens University of Economics and Business (AUEB)

Athens, Greece | September 2023 (Thesis submitted*)

*Confirmed graduation: January 2027

MSc in Economics

- Funded by George and Victoria Karelia's Foundation scholarship (based on academic merit. 10 recipients annually across Greece)
- Current GPA: 8.06/10
- Thesis: Forecasting portfolio investment flows into emerging markets using mixed-frequency fund-flow data (Python)

University of Macedonia (UoM)

Thessaloniki, Greece | September 2018 – September 2023

BSc in Accounting and Finance – First Class Honours Degree

- GPA: 9.11/10 (Finance Major) – Class average: 7.23/10.

VOLUNTEERING & LEADERSHIP

Get Involved (Economic Literacy Organization)

Athens, Greece | May 2022 – December 2022

- Translated and summarized key insights from the ECB's Economic Bulletin into Greek.
- Co-authored and edited a 200-page central banking study guide for the ECB Simulation Conference powered by the BoG.

Budget Manager of Finance Club UoMacedonia (elected)

Thessaloniki, Greece | September 2020 – September 2021
